Cable Modem with Built-In Wireless-G Router

The Linksys Wireless-G Cable Gateway is the all-in-one solution for Internet connectivity in your home -- a Cable Modem, Internet-sharing Router, Switch, and Access Point in one box!

The Cable Modem function gives you a blazing fast connection to the Internet, far faster than a dial-up, and without clogging up your phone line. Connect your computer to the Gateway via USB, or take advantage of the built-in 4-port 10/100 Ethernet Switch to jump start your home network. You can share files, printers, hard drive space and other resources, or play head-to-head PC games. Connect four PCs directly, or daisy-chain out to more hubs and switches to create as big a network as you need.

The built-in Wireless-G Access Point allows up to 32 wireless devices to connect to your network at a blazing 54Mbps, without running cables through the house. It's also compatible with Wireless-B devices, at 11Mbps. The Gateway's Router function ties it all together and lets your whole network share that high-speed Internet connection.

To protect your data and privacy, the Wireless-G Cable Gateway features an advanced firewall to keep Internet intruders and attackers out. Wireless transmissions can be protected by industrial-strength WPA encryption. Safeguard your family with Parental Control features like Internet Access Time Limits and Key Word Blocking. Configuration is a snap with any web browser.

With the Linksys Wireless-G Cable Gateway at the heart of your home network, you're connected to the future.

High-speed DOCSIS 2.0 certified Cable Modem gives you a fast, "Always On" connection to the Internet

Share the Internet -- connect one PC to the integrated Router via USB and four more via Ethernet using the built-in 10/100 Switch

Built-in Wireless-G (802.11g) Access Point also lets you connect without running wires

Advanced firewall and security features protect your PCs, your data, and your family

Cisco Systems

Wireless-G
Cable Gateway

Features

- DOCSIS 1.1 and 2.0 certified cable modem
- Integrated Wireless-G Access Point (Also compatible with all Wireless-B devices)
- SPI firewall with Denial of Service attack prevention
- Wireless Access Lists and WPA to enhance wireless security
- USB port for systems without a wired or wireless network card
- Email and Web-based Logging of Security Events
- Supports VPN Passthrough for IPSec, PPTP, and L2TP Protocols
- MAC Address Filtering, Port Forwarding, and DMZ support

Specifications

Model Number	WCG200
Standards	DOCSIS 1.0, DOCSIS 1.1 Certified, DOCSIS 2.0 Certified, 802.11g, 802.11b
Ports	4 RJ-45 10/100, 1 USB, 1 Female Coax F-Connector
Buttons	Power ON/OFF switch, Reset
Cabling Type	CAT5, USB, Coax
LEDs	Power, DS, US, Online, Ethernet, USB, Wireless
Security features	WPA, WEP, MAC address filtering, SPI Firewall
WEP key bits	64/128

Environmental

Dimensions W x H x D	7.32" x 2.48" x 6.08" (186 mm x 63 mm x 154.5 mm)
Unit Weight	16 oz. (0.45 kg)
Power	12VDC, 1A
Certifications	DOCSIS 1.1, DOCSIS 2.0, FCC Part 15B Class B, UL 1950, EN60950, CE EN 55022 Class B, VCCI, IC-03
Operating Temp.	32°F to 104F (0°C to 40°C)
Storage Temp.	-4°F to 158°F (-20°C to 70°C)
Operating Humidity	20% to 90% Non-Condensing
Storage Humidity	20% to 90% Non-Condensing
